

SUMMER ANALYTICS 2020

Welcome to the first assignment series of Summer Analytics 2020. This Week's practice assignment series will consist of 2 Assignments on Data Analysis.

- To begin with, please download both the ipynb files to the default directory of your Jupyter Notebook (*Generally this will be C:\Users\your_username*)
- Once copied to the default directory , you can browse the files when you first open Jupyter , click on the assignment notebook which will be visible in the file search window. Now you may begin solving the assignment.
- Each Assignment requires the knowledge of Python , Pandas , Numpy and basic Data Analysis Skills
- Certain questions will require searching the web for additional Python/ Pandas concepts which may not be part of Summer Analytics 2020. It is very important that you study it on your own as this forms a vital part of the learning process.
- These Assignments are ungraded and don't have a submission deadline.
- Please follow the honor code and violation of the same will lead to harsh actions being taken.

Stay Safe , Stay Healthy and Enjoy the Course

Regards

Team CnA, IIT Guwahati
